

RETAIL HERO'S TEAM COMMISSION

www.RetailHero.com/TeamCommission

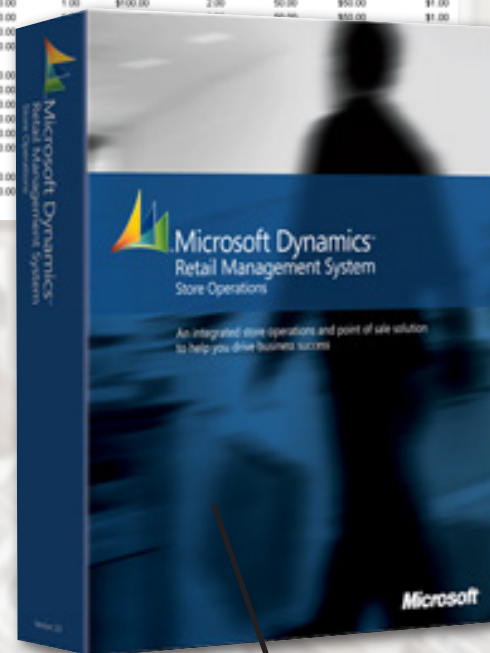

Create multiple sales teams and manage commission for each sales rep

Track team performance against set sales goals with custom reports

Assign an individual commission weight within the team to each member. Higher numbers give that employee a larger chunk of the overall commission.

Integrates seamlessly with your current Microsoft Dynamics RMS set-up

How it works

Team Commission for Dynamics RMS is an add-on utility that lets you put sales staff on multiple teams, and assign a commission weight in each team to each member. The program also tracks team performance.

Typical clients:

- High-end fashion stores: multiple team members with different specializations get a commission.
- Flooring and raw materials: The trainee gets a smaller commission than the expert.
